## Report on International Day of Yoga June 21, 2020

The entire world is going through the grim situation owing to the COVID-19 pandemic. Most part of the world is locked down. Maximum people are confined within their home. In the present situation, people are passing days with lots of uncertainties like afraid of to be infected, economic recession owing to the long period of lock down, irregularities of children's education, domestic violence due to no earning and old parent's physical instability etc. Thus, people are in constant search for mental peace and healthy life style. Out of this need, the indigenous, traditional and ancient Indian knowledge have emerged as a way of healthy living rather than materialistic, luxurious and lavish lifestyle of western world. Patanjali Yoga --- an Ancient Indian Philosophy of life is such an escapist way and is accepted by the world community. Therefore, Celebration of International Day of Yoga has a wholesome world concern rather than to be confined to a local and narrow concept.
