Zoology

Paper-2A

ECOLOGY, ENVIRONMENTAL BIOLOGY & TOXICOLOGY : PGZO-IIA

Question 1

How many types of survivorship curves are found in the environment?

Question 2

Which physical parameter is estimated by Lindmann Efficiency?

Question 3

Which of the following statement is correct to explain neutralism?

Question 4

What is called the spectrum of solar radiant energy below 390 nm?

Question 5

What is called the light penetration to the vertical stratification reaches upto 50 metre depth?

Question 6

What is the term used for the oriented locomotory movement occurred away from light source?

Question 7

What is described by Gloger's Rule?

Question 8

Where do you feel mountain sickness ?

Question 9

Which hormone is known as an anti-stress hormone?

Question 10

Which chemical compound is known as an antioxidant?

Question 11

What is the main cause of acid rain?

Question 12

What type of toxin is produced during Amnesic Shellfish Poisoning?

Question 13

Which chemical is known as environmental estrogens?

Question 14

What is the primary cause for blue -baby syndrome?

Question 15

In which year Water (protection and control) Act was established In India?

Question 16

Which of the following statement is correct to explain commensalism?

Question 17

What is called the spectrum of solar radiant energy more than 760 nm?

Question 18

What is called the light penetration to the vertical stratification reaches up to 100 metre depth?

Question 19

Which of the following animal is considered as an example of positive phototactic ?

Question 20

What is the term used for the organisms that cannot survive in wide temperature fluctuations?

Question 21

What is the full form of PAN?

Question 22

What type of toxin is produced during Diarrhetic Shellfish Poisoning?

Question 23

What is the name of the disease caused due to arsenic pollution?

Question 24

In which year Air (protection and control) Act was established in India?

Question 25

What is called when precipitation occur in the form of hard rounded pellets?

Question 26

What is called the decrease in the partial pressure of oxygen in the environment?

Question 27

Which enzyme is known as scavenger enzyme?

Question 28

Which of the following element is responsible for blue-baby syndrome in infants?

Question 29

Which one of the following is a green house gas?

Question 30

Which environmental agent mimics the natural estrogen?
