1. The Concept of Open University

The pedagogy of Open Learning places the primary responsibility of acquiring knowledge on the learner. On its part, the University facilitates a flexible learning schedule, provides a kitty of advanced support services and offers accreditation by way of examinations.

The Open University represents an alternative approach to higher learning. It stands apart from a highly formal, institutionalized and centrally administered system of education. Its philosophy is built around the principles of universality, flexibility and innovativeness. Its ideas and institutions, its methods and procedures are all shaped accordingly. Conceptually, it can be viewed as a system drawing upon the best elements in formal and non-formal education.

The 'openness' consists of a variety of features.

First, it offers easy access to the learners. The entry requirement is not too exacting. A genuine interest in picking up knowledge is all that it expects. Consequently, it would try to embrace as many learners as possible.

Second, its territorial reach is visibly wide. It aims at bringing education to the doorstep of the learner, wherever he or she may be. Various methods of communication and contact are used for this purpose. The classroom of the University, thus, is as wide as the entire land it seeks to serve.

Third, the Open University is learner-oriented. It devises its courses and methods of teaching to suit the needs of the learners. Their options and inclinations are given due priorities. A variety of courses—short-term or long-term, liberal or professional can be pursued under the University.

Fourth, it believes in fair distribution of quality education, teaching aid, consultancy and study materials. Whatever resources, the University has been made evenly available to all learners wherever or whoever he or she might be. It eliminates variations and discrimination.

Fifth, its administration is decentralized. In promoting Distance Education, the University creates a wide network of Study Centres. Students need only to come to the nearest available centre for collecting all information, completing all formalities, discussing their academic issues and appearing for evaluation of their work at intervals chosen by them.

Sixth, student assessment under Open University is based on continuous assessment and credit system. It does not require students to get bogged down in one final examination. One can study at one's own pace.

In short, the Open University seeks to open up the treasure house of knowledge to the maximum number of users. Thereby it would enhance their skills for productivity and further learning. Socially, too, the University promises steady empowerment of those who suffered backwardness for want of these skills. Considering the current trends all over the world, the Open University is going not only to complement the conventional system of higher education but may soon occupy the centre stage also in developing countries where the resources do not measure up to the vastness of the clientele.

MLIS being a one-year programme the degree will be awarded on the basis of results of one Term-End Examination. Learners will have to pass in each and every paper, pass mark being 40%. Examination will be held at Kolkata and at such other Centres as may be decided by the University. Pass marks of PG laboratory subjects, both in theoretical and practical papers is 40%. A candidate is eligible to appear at the Term-End Examinations along with backlog (i.e. subjects 'not cleared') subject to submission of assignment at the Study Centre within the due date.

NSOU always endeavours to adhere to the academic calendar for conducting examinations and publishing the results on top most priority. However, being an Open University the functions of NSOU depend a lot on the participation of the teachers and secretarial staff of the Study Centres which are located in the colleges affiliated to the other State Aided Universities of West Bengal. In case of some unlikely events functioning of the Study Centres may be affected which is beyond the control of NSOU. These may lead to deviations from the academic calendar under the existing system. Such unintentional deviations cannot be totally ruled out. In such cases NSOU will always strive to minimise such delays. Despite its best efforts, NSOU, however, cannot guarantee finalization of the results in some cases. In those cases pending finalization of the result of the last examination, before the commencement of the next examination, the students concerned may be advised to fill in the application form for examination within the scheduled date. But in case a student is found to have cleared the earlier examination after filling up of the application form for the next examination, the application shall be treated as cancelled.

15. Evaluation Method

In Open and Distance Learning (ODL) mode of education in case of theoretical papers the students would be subject to continuous evaluation in the form of Assignments. In compiling results **20% will come from the Assignment evaluation (A) and 80% from the performance in the Term-End Examination (B).**

In case of Dissertation, Field Work Report and Viva-Voce for PGGR, PGZO, MSW and MLIS, 100% weightage is reserved for the Term-End Examination.

Continuous evaluation of theoretical papers is made on the basis of assignment which every student is required to submit before each Term-End Examination.

Term-End Examinations are held at the end of every academic year. Students who intend to appear at a Term-End Examination are required to fill in application forms as per notification issued by the Examination Department of the University (134/1, Meghnad Saha Sarani, Kolkata-700 029) from time to time.

The student who fails to appear in a particular Term-End Examination may avail himself/herself in the subsequent once to clear a backlog subject to submission of assignment within the due date at the Study Centre.

It is also noteworthy that the marks obtained in each paper would be a summation of Assignment Marks (A) and Term-End Examination Marks (B) recalculated in 20% and 80% weightages respectively. Rounding of marks (obtained out of 100), following the usual procedure, is allowed only paper-wise - while calculating the 'Marks Obtained' (A + B) for each individual paper, as narrated in the Mark Sheet.

16. Evaluation Process

The evaluation of each subject will be made in two ways:

a) Assignment/Internal Assessment:

Assignments have a very important role to play in the teaching-learning process in distance education. There may be long spatial distance between a learner and distance education institution which is bridged by sending assignments to the learners and requiring them to reply the questions therein. The learners answer the assignment questions and send back which are then evaluated by the evaluators/academic counsellors /distance teachers. The assignment responses reflect what the learners have understood and learnt. The assignments are then returned to the learners with the comments/remarks of the evaluator so that the assignment answers may serve the purpose of providing feedback to the learners and inform them their strengths and weaknesses. These comments carry the meaningful and constructive suggestions of the evaluator which further forms the bases of successful learning. Thus, the assignments serve the purpose of two-way communication between the learner and evaluator/academic counsellors/distance teacher despite physical distances between the two. Students will be required to submit assignment papers for each subject and the credit obtained on evaluation of those assignment papers will be entered into his/her individual record of performance. This will constitute 20% of the total credit points in the subjects. All the credit points secured by the students will be progressively entered into record.

Every student is required to submit the assignment papers before each Term-End Examination which is due at the end of each academic year. But in no case a student shall be allowed to fill in the Application Form to sit for the examination if he/she has not submitted assignment paper within the due date as announced by the Examination Department of the University from time to time. Students are required to take back the copy of the evaluated assignment papers from their respective Study Centre.

NSOU Website: You may also access all relevant information and assignments from the University Website at www.wbnsou.ac.in.

Learners are advised to keep the following in mind:

For your own record retain a copy of all assignment responses which you submitted at your Study Centre. Also the assignments are not subject to re-evaluation except for factual errors, if any, committed by the evaluator. The discrepancy noticed by you in the evaluated assignments should be brought to the notice of the Coordinator of the Study Centre, so that the correct score is forwarded by him/her to the Controller of Examinations. Once the assignment marks are received by the Department of Controller of Examinations, no further change in assignment marks will be allowed.

b) Term-End Examinations:

80% of the total credit points of the subjects would be reserved for Term-End Examination scheduled to be held at the end of each year.

c) Practical Examinations/ Dissertation/Viva-Voce:

For detailed information regarding Practical Sessions/ Dissertation A/iva-Voce the respective Department/ School of Studies may be contacted

GRADATION:

Marks Obtained	Class	Grade
70% and Above	1st Class	A+
60% to below 70%	1st Class	A
55% to below 60%	2nd Class	B+
40% to below 55%	2nd Class	B
