## 1. The Concept of Open University

The pedagogy of Open Learning places the primary responsibility of acquiring knowledge on the learner. On its part, the University facilitates a flexible learning schedule, provides a kitty of advanced support services and offers accreditation by way of examinations.

The Open University represents an alternative approach to higher learning. It stands apart from a highly formal, institutionalized and centrally administered system of education. Its philosophy is built around the principles of universality, flexibility and innovativeness. Its ideas and institutions, its methods and procedures are all shaped accordingly. Conceptually, it can be viewed as a system drawing upon the best elements in formal and non-formal education.

The 'openness' consists of a variety of features.

First, it offers easy access to the learners. The entry requirement is not too exacting. A genuine interest in picking up knowledge is all that it expects. Consequently, it would try to embrace as many learners as possible.

Second, its territorial reach is visibly wide. It aims at bringing education to the doorstep of the learner, wherever he or she may be. Various methods of communication and contact are used for this purpose. The classroom of the University, thus, is as wide as the entire land it seeks to serve.

Third, the Open University is learner-oriented. It devises its courses and methods of teaching to suit the needs of the learners. Their options and inclinations are given due priorities. A variety of programmes—short-term or long-term, liberal or professional can be pursued under the University.

Fourth, it believes in fair distribution of quality education, teaching aid, consultancy and study materials. Whatever resources, the University has been made evenly available to all learners wherever or whoever he or she might be. It eliminates variations and discrimination.

Fifth, its administration is decentralized. In promoting Distance Education, the University creates a wide network of Learner Support Centres. Learners need only to come to the nearest available centre for collecting all information, completing all formalities, discussing their academic issues and appearing for evaluation of their work at intervals chosen by them.

Sixth, student assessment under Open University is based on continuous assessment and credit system. It does not require learners to get bogged down in one final examination. One can study at one's own pace.

In short, the Open University seeks to open up the treasure house of knowledge to the maximum number of users. Thereby it would enhance their skills for productivity and further learning. Socially, too, the University promises steady empowerment of those who suffered backwardness for want of these skills. Considering the current trends all over the world, the Open University is going not only to complement the conventional system of higher education but may soon occupy the centre stage also in developing countries where the resources do not measure up to the vastness of the clientele.

#### 14. Methods of Instruction

The University makes use of several methods to provide maximum possible exposure of the learners to the course-contents and to each instructional programme. To start with, printed SLMs/SIMs (Self Learning Materials/Self Instructional Materials) packages and contact programmes involving face-to-face interaction with academic counsellors are available. Eventually audio-materials, audio-visual presentations, teleconferences and occasional discussion sessions through Webcasted and FM channels may be introduced.

**Personal Contact Programme (PCP):** PCP schedules for PG programmes are prepared by concerned School of Studies and circulated among the Learner Support Centres as well as notified in the official website of the University well ahead of the schedule. PCPs are conducted at selected accredited Learner Support Centres (known as PCP Centre) of this University from different regions of West Bengal. PCP sessions are generally scheduled on weekends/ holidays, though, under special circumstances, special sessions may be arranged on weekdays with a notification in the University Website. Learners are recommended to read their SLMs/ SIMs thoroughly before participating in the PCP session to find it immensely useful. For each 100 marks of a theoretical paper there will be generally maximum 10 PCP sessions of 3 hours' duration each and for 100 marks of a theoretical paper of science subject there will be maximum 12 PCP sessions of 3 hours' duration each. During these sessions, teachers will help the learners with their course work. Attendance at PCPs are optional for most Programmes, unless otherwise specified. PCPs are conducted in both the languages as per convenience. Learners attending PCP will have to make their own arrangements for boarding/lodging.

**Practical Session:** The PCP sessions for practical papers of PGZO & PGGR, PGJM held mainly on the Sundays in the respective Learner Support Centres. A master routine is uploaded in the University Website which include theory and practical papers for the full session.

Additional sessions for practical papers /computer training are organised often with a notification in the University Website for PGZO, PGGR, PGMT & PGJM. For PGMT, the computer training programme related to paper-4B is an integrated part of the syllabus and successful completion of their training programme is mandatory. Circular with details of venue and schedule for practical sessions is distributed to the respective Learner Support Centre and also published in the official Website ([www.wbnsou.ac.in](http://www.wbnsou.ac.in)) well ahead of the same.

#### 15. Examination

University holds two Term-End Examinations — first year Examination at the end of the first year and second year Examination at the end of the second year. Examination fees and Centre fees will be announced before filling in forms for examination.

M.A./M.Sc./M.Com./MSW (for MSW please see the point 14: Exit Provision in MSW) degree will be awarded on the basis of results of first year and second year examinations taken together. MLIS being a one-year programme the degree will be awarded on the basis of results of one Term-End Examination. Learners will have to pass in each and every paper, pass mark being 40%. Examination will be held at Kolkata and at such other Centres as may be decided by the University. Pass marks of PG laboratory subjects, both in theoretical and practical papers is 40%. A candidate is eligible to appear at the Term-End Examinations along with backlog (i.e. subjects ‘not cleared’) subject to submission of assignment at the Learner Support Centre within the due date.

NSOU always endeavours to adhere to the academic calendar for conducting examinations and publishing the results on top most priority. However, being an Open University the functions of NSOU depend a lot on the participation of the teachers and secretarial staff of the Learner Support Centres which are located in the colleges affiliated to the other State Aided Universities of West Bengal. In case of some unlikely events functioning of the Learner Support Centres may be affected which is beyond the control of NSOU. These may lead to deviations from the academic calendar under the existing system. Such unintentional deviations cannot be totally ruled out. In such cases NSOU will always strive to minimise such delays. Despite its best efforts, NSOU, however, cannot guarantee finalization of the results in some cases. In those cases pending finalization of the result of the last examination, before the commencement of the next examination, the learners concerned may be advised to fill in the application form for examination within the scheduled date. But in case a learner is found to have cleared the earlier examination after filling up of the application form for the next examination, the application shall be treated as cancelled.

#### 16. Evaluation Method

In Open and Distance Learning (ODL) mode of education in case of theoretical papers the learners would be subject to continuous evaluation in the form of Assignments. In compiling results 20% will come from the Assignment evaluation (A) and 80% from the performance in the Term-End Examination (B).

In case of Dissertation, Field Work Report and Viva-Voce for PGGR, PGZO, MSW, MLIS and Journalism and Mass Communication, 100% weightage is reserved for the Term-End Examination.

Continuous evaluation of theoretical papers is made on the basis of assignment which every learner is required to submit before each Term-End Examination.

In case of Dissertation/ Field Work Report and Viva-Voce for PGEL 100% Weightage is reserved for Assignment submission only. For Term-End Examination, Elective 7 and Elective 8 is 100% theoretical.

Term-End Examinations are held at the end of every academic year. Learners who intend to appear at a Term-End Examination are required to fill in application forms as per notification issued by the Examination Department of the University (134/1, Meghnad Saha Sarani, Kolkata-700 029) from time to time.

The learner who fails to appear in a particular Term-End Examination may avail himself/ herself in the subsequent once to clear a backlog subject to submission of assignment within the due date at the Learner Support Centre.

It is also noteworthy that the marks obtained in each paper would be a summation of Assignment Marks (A) and Term-End Examination Marks (B) recalculated in 20% and 80% weightages respectively. Rounding of marks (obtained out of 100), following the usual procedure, is allowed only paper-wise - while calculating the 'Marks Obtained' (A + B) for each individual paper, as narrated in the Mark Sheet.

#### 17. Exit Provision in MSW

After successful completion of 1<sup>st</sup> year examination, all the eligible learners will get "Diploma in Social Work (DSW)". Accordingly, the certificate will be issued to such candidates of DSW. However, after the successful completion of 2<sup>nd</sup> year they may get MSW degree.

#### 18. Evaluation Process

The evaluation of each subject will be made in two ways:

**a) Assignment/Internal Assessment:**

Assignments have a very important role to play in the teaching-learning process in distance education. There may be long spatial distance between a learner and distance education institution which is bridged by sending assignments to the learners and requiring them to reply the questions therein. The learners answer the assignment questions and send back which are then evaluated by the evaluators/academic counsellors' /distance teachers. The assignment responses reflect what the learners have understood and learnt. The assignment will be conducted on digital platform through MCQs. The assignments serve the purpose of two-way communication between the learner and evaluator/ academic counsellors/distance teacher despite physical distances between the two. Learners will be required to submit assignment papers for each subject and the credit obtained on evaluation of those assignment papers will be entered into his/her individual record of performance. This will constitute 20% of the total credit points in the subjects. All the credit points secured by the learners will be progressively entered into record.

Every learner is required to submit the assignment papers before each Term-End Examination which is due at the end of each academic year. But in no case a learner shall be allowed to fill in the Application Form to sit for the examination if he/she has not submitted assignment paper within the due date as announced by the Examination Department of the University from time to time. Learners are required to take back the copy of the evaluated assignment papers from their respective Learner Support Centre.

NSOU Website: You may also access all relevant information and assignments from the University Website at [www.wbnsou.ac.in](http://www.wbnsou.ac.in).

**Learners are advised to keep the following in mind:**

For your own record retain a copy of all assignment responses which you submitted through digital platform. Also the assignments are not subject to re-evaluation except for factual errors, if any, occurred during the evaluation. The discrepancy noticed by you in the evaluated assignments should be brought to the notice of the examination department through the Coordinator of Learner Support Centre for necessary correction. Once the assignment marks are received by the Department of Controller of Examinations, no further change in assignment marks will be allowed.

**b) Term-End Examinations:**

80% of the total credit points of the subjects would be reserved for Term-End Examination scheduled to be held at the end of each year.

**c) Practical Examinations/ Dissertation/Viva-Voce:**

For detailed information regarding Practical Sessions/ Dissertation Viva-Voce the respective Department/ School of Studies may be contacted

**GRADATION:**

Marks Obtained	Class	Grade
70% and Above	1st Class	A+
60% to below 70%	1st Class	A
55% to below 60%	2nd Class	B+
40% to below 55%	2nd Class	B
35% to below 40%	2nd Class	C

Minimum qualifying marks in each subject is 40% of the grand total of marks in that subject (Term-End Examination Marks + Total Assignment Marks).

**19. Degrees and Recognition**

After successful completion of the programme the learners will get M.A./ M.Com./ M.Sc./ MSW (for MSW please see the point 14: Exit Provision in MSW)/ MLIS degree awarded on the basis of performance of the learners in the Assignments and the Term-End Examinations.

These Centres cover all the districts of the State and are located at convenient points connected by public transport. A Learner Support Centre is placed under the supervision of a Coordinator to be monitored by the Governing Body through the Principal of the College, and assisted by the staff of his office. It provides all information including prospectus and application forms for enrollment.

At the beginning of each session, Learner Support Centres invite the learners for an induction meeting where they are familiarized with the aims, objectives and activities of the University and the methodology of Distance Education.

Learner Support Centres distribute the home assignment papers received from the University and arrange for their evaluation.
