### **Geography**

#### **Paper-1B**

#### **HYDROLOGY & OCEANOGRAPHY : PGGR-IB**

##### **Question 1**

Lagoons are which kind of wetland?

---

##### **Question 2**

What is usually the area of micro watershed?

---

##### **Question 3**

Which of the following is a Ramsar Site?

---

##### **Question 4**

What are the factors controlling factors of surface runoff?

---

##### **Question 5**

Which hydrograph shows the stream's response of a year?

---

##### **Question 6**

One of the source and container of a groundwater is known as?

---

##### **Question 7**

Which is the largest mid oceanic ridge of the earth?

---

##### **Question 8**

What is the average salinity of the ocean?

---

##### **Question 9**

What is called the farthest point of the orbit between the moon and the earth?

---

##### **Question 10**

Which is the deepest oceanic trench of the earth?

---

##### **Question 11**

The stand still theory of origin of coral reefs is postulated by whom?

---

##### **Question 12**

Which of the following is the average angle of the continental slope?

Question 13

Which one of the following is the extended area of the continental crust?

Question 14

Which of the following ooze is formed from the shells of the organism foraminifera?

Question 15

The reef separated from a mainland or the island shore by a deep lagoon is called?

Question 16

What is the zone lying above the water table called?

Question 17

What is the ratio of the number of stream branches of a given order to the number of stream branches of the next higher order called?

Question 18

What is the rate of surface runoff upon hard and impervious rock floor?

Question 19

What is the part of the hydrograph up to the point of peak of discharge called?

Question 20

What was the intergovernmental treaty which provided a framework for international cooperation for conservation of wetland?

Question 21

What is the total length of the drainage in a drainage basin divided by the total area of the drainage basin called?

Question 22

What is the steep-sided valley on the sea floor of the continental slope called?

Question 23

What is the diagram that represents the temperature and salinity of the ocean?

Question 24

What is called the point in the orbit of the moon at which it is nearest to the earth?

**Question 25**

Which is the deepest oceanic trench of the Indian Ocean?

---

**Question 26**

The glacial control theory of origin of coral reefs is postulated by whom?

---

**Question 27**

What is the depth for the growth of coral reefs?

---

**Question 28**

What do you mean by sediments of the continental origin?

---

**Question 29**

What are the shallow water marine sediments that form on the continental shelf when bottom waters are well aerated called?

---

**Question 30**

The highest salinity is found in which region among the following?

---
