Dr. Premananda Jana, Director, Kalyani RC

Dr. Sudarshan Roy, Asst. Professor, Commerce

Shri Niladri Sekhar Mondal, Asst. Professor, Environmental Science (online)

Shri Siddhartha Biswas, Technical Assistant

Professor Anirban Ghosh welcomed all the participants to the virtual Pre-admission counselling for admission into Postgraduate Degree programme under different schools of studies. The university published the admission notification for admission into its postgraduate degree programme for the academic session 2023-24. The Centre for Internal Quality Assurance organized the virtual awareness programme for the prospective learners of the University. About 25 students attended the programme. As per the notification, the students may take admission in 16 PG degree programmes under five schools of Studies. Dr. Ghosh in his lecture discussed that the students have the option at various levels in the online admission form. The students may select any one programme out of 16 programmes and then may select their nearest LSC available in the drop-down menu. The students were also informed that after admission, they cannot change the programme and courses selected by them. With the approval of UGC-DEB, two new PG programmes namely MBA and Environmental Science have been introduced in the present session. The MBA programme is also approved by the AICTE. Detailed course structure of the newly introduced programme was discussed by the respective faculties.

Dr. Sudeshna Chatterjee, Jt. Registrar (Academic) described the entire admission process. She mentioned that there is no need to visit the Learner Support Centre at this stage. The verification of documents are carried out online from Hqtrs. There are three steps processes of the online admission system. After the successful submission of the admission form with supporting documents, students have to wait for confirmation. On receipt of confirmation, the students may deposit the requisite fees either through an online payment gateway or at the bank counter. The students were advised to keep the user ID and PW for subsequent logging into the portal.

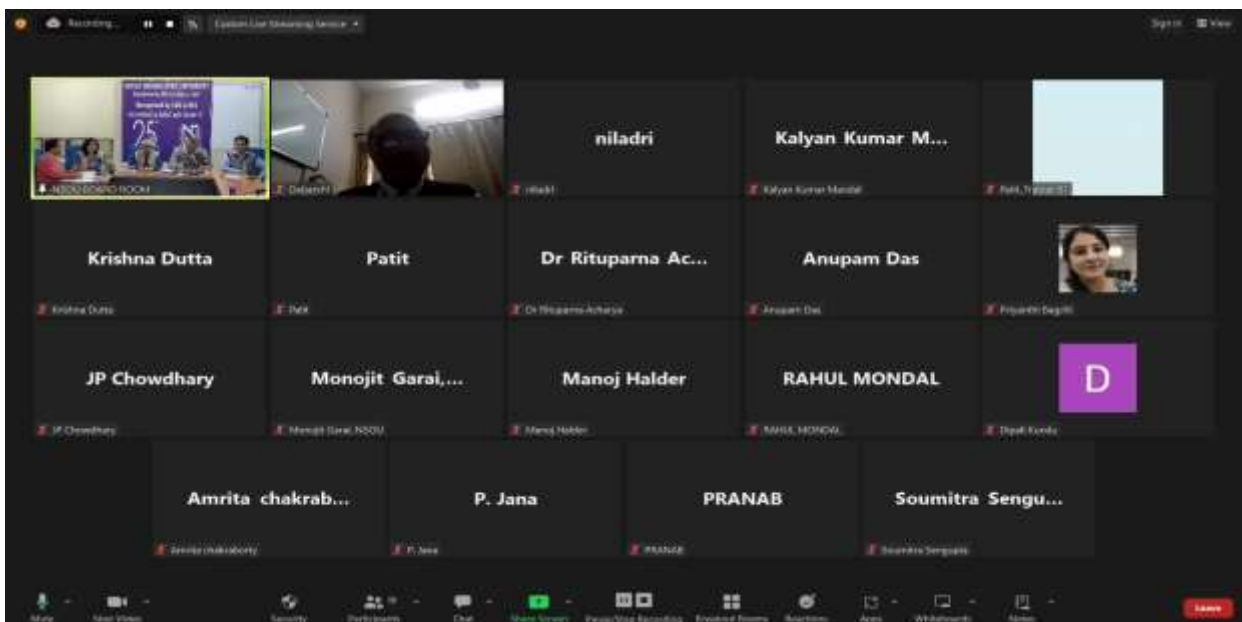

They were also told that the students may give unique mobile numbers as they use and keep them active till they finish their studies at NSOU.

The participants were advised to go through the prospectus before they fill up their online admission form. If they wish, they may visit the Learner Facilitation Centres (LFCs) located at three Regional Centres viz. Kalyani, Jalpaiguri & Durgapur.

During Q/A session, the students across the state put some questions on admission, dual degree, examination system, possibility of extension of admission date etc. which were suitably addressed by the Director, CIQA, Joint Registrar (Academic) and other faculties present in the programme.

The programme ended with formal vote of thanks proposed by the Director, CIQA.
